

To W.L.G.

The Cliff,  
near Dundee.

194  
Darling Mr Durham  
July 16<sup>th</sup> - 177

My dear Friend

The time is getting  
so near when I am hoping  
to hear that you are  
coming to Dundee  
that I send this letter  
at a venture, to Edin<sup>g</sup>,  
that being the only  
address that I know

I have just been at  
Wichech in Cambridgehire  
at a grand Temperance  
demonstration there -  
and the Dartington friends  
wish me to come here in  
October to help them -  
I am expecting Mr. Parker  
to join me here today and  
we return home about the  
middle of the week -  
I wish I knew if you will  
be able to give us a few  
days - I have a delightful  
little journey carrying  
and anticipate the

pleasure of driving you and  
Mr. Frank to see the Jay Bridge  
- which is the longest in  
the world, being one  
hundred feet longer than  
the one at Montreal (Canada)  
I hope you are feeling stronger  
since you came into this  
country. our summers are  
certainly more invigorating  
than those at the other  
side of the Atlantic. but  
my experiences of America  
are all so cheering and  
pleasant that I must  
always cherish the warm-  
est

for America and the  
Americans, among them  
are my choicest friends  
how well it is, that the  
things best worth having  
are those which time does  
not rob us of, and which  
do not pass away. When  
we put off this embryo shell  
the body - May I ask for  
a line either to my own  
home, or to my sister here  
Mrs Landon. When I see  
Dorchester I shall be  
there till Wednesday  
before we ever go.  
Truly Yours Margaret E. Parker
